COVER to CAMPER 490/590 Caged Trailer Cover

We are a small Western Australian Designed, Owned and Operated business working on breathing life back into the Trailer Cover market, which has been stuck in a many decades old design rut... till NOW! Our Unique Modular Caged Trailer Cover is not only a cover but also a Camper. Modular zip-on extensions expand and transform it into your Camper Trailer in a Bag.

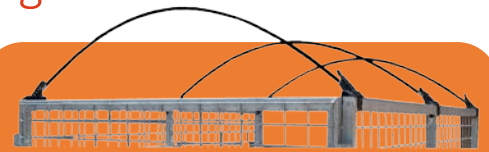

The Basics of Our Trailer Cover

The COVER to CAMPER Modular Caged Trailer Cover will fit all 4ft or 5ft wide trailers that are fitted with 900mm high cages. The cover is constructed of Ultra Heavy Duty PVC and fitted with quality waterproof connecting zips. The 2 modular extensions zip onto the base unit to extend the cover by 2 further trailer sizes. 6x4/7x4 / 8x4 for the Model 490, and 6x5/7x5/8x5 sized trailers for the Model 590.

How Is Our Cover Different

The COVER to CAMPER is a Dual Use cover. It can be used as a basic trailer cover, or transform your caged trailer into a Camper. Our cover has modular zip on extensions, but even more impressive is that our Patentened Domed Roof Support System doesn't require any drilling to attach. The roof is supported by three Fibreglass 2 Piece Flexi Poles which slot into our unique L-Mounts. These strap to your cage quickly & easily, then we use a sown-in Bungee and Hook System to tie-down the trailer cover. The Cover is ventilated by 2 front FlyScreen Vents and a Full Rear Screen Door. A zipped window each side of the cover will allow in enough light for all your needs.

Most convinient of all, it won't take 2 burly blokes to attach this cover like some camper covers or roof-top tents do. Anyone can install or remove this cover, which then folds away into its own carry bag for easy storage in your car boot or garage shelf. Try doing that with the old style trailer camper covers & tents! We are also currently developing other modular add-on's, the 1st of which will be a zip-on Awning, with hopes of an entire Annex to follow. The COVER to CAMPER is covered by a 2 Year Warranty.
